Introduction

A new e-Care Clinicals application is going to replace the legacy Pro-Team application. The e-Care Clinicals application has a more comprehensive functionality for the nurses to do their daily jobs better. The features of the application include:

- Efficient patient admission and treatment process.
- Easy transfer of lab orders and results between Spectra Labs and e-Care
- Secured maintenance of all the demographic and health details of the patients
- Smooth Financial Billing service
- Accurate daily report generation

Application Flow

Tasks Performed

Review BRD and FSD document

- Master Test Plan Document
- Created Test Condition Matrix
- Identified Test Scenarios and Test Cases
- Mapped BRD → FSD → Test Cases in Traceability Matrix
- Specified Test Steps for two test cases
